Credits/Notes

I'd been hoping that someone would pick up this series for awhile, but since it hasn't been touched in years I'm giving it a go myself

Sorry if this issue is a bit rough - my Japanese is pretty bad so this take a lot of time with a dictionary to get anywhere (not much better on the image editing unfortunately)

If anyone wants to help with any part of the scanlation process drop me a line - its a lot of work for one person!
